DETAILED ACTION

1. This Office Action is a response to communications dated 09/12/06. Claims 2-7, 18-31 are pending in the application.

Drawings

2. The drawings were received on 09/12/06. These drawings are approved.

Allowable Subject Matter

3. Claims 2-7 and 18-31 are allowed.
4. The following is an examiner's statement of reasons for allowance:

The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed system comprising, among other limitations, novel and unobvious limitations of "a switch core having a first channel configured to received a logical input flow data from each of the plurality of the ports, and having a second channel configured to received a raw input flow data from each of the plurality of ports, wherein each logical input flow data is carried by its corresponding raw input flow data", structurally and functionally interconnected with other limitations in a manner as recited in claims 2-7 and 18-19.

As per claim 20-24, the claims are drafted in a means plus function format satisfying the 3-prong analysis. Therefore, the claims are being treated under 35 U.S.C. 112, sixth paragraph. Thus, the prior art of record, considered individually or in

combination, fails to fairly show or suggest the claimed networking system in a manner as claimed.

The prior art of record, considered individually or in combination, fails to fairly show or suggest the claimed method comprising, among other limitations, novel and unobvious limitations of *"receiving a logical input flow data at a first channel of a switch core and a raw input flow data at a second channel of the switch core from each of the plurality of ports; switch the logical input flow data received at the first channel and the raw input flow data received at the second channel using the switch core"*, structurally and functionally interconnected with other limitations in a manner as recited in claims 25-31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
